Susan Anderson MBA

WE ARE LOOKING FOR A 1ST TO 4TH QUARTER STUDENT THAT MAY BE INTERESTED IN PRACTICING IN BEAUTIFUL CHARLOTTE NC AFTER GRADUATION!

Congratulations on your decision to study Chiropractic. If you already have a desired model of practice, I am sure you will enjoy helping many people, but you are likely not a good fit for our office. If you are in search of practice style, I would like to invite you to discuss our Balanced Body System of Health and the complete health program we can offer to our patients.

Our office has one goal: To provide a complete health care service so all patients can enjoy a natural program of health as an alternative to the medical model.

While the foundation of our care is the NUCCA upper cervical technique, we have integrated full spine and extremity care, chiropractic rehabilitation, physical therapy, functional medicine, thermography, diagnostics and massage therapy. Our team consists of chiropractors, physical therapists, exercise therapists, physical therapy assistants, nurses, x-ray technicians, naturopaths and massage therapists. If you want to join of a team that can manage all your patient's health care needs and deliver a one-of-a-kind patient experience, we may be the place for you and we would like to invite you to spend some time experiencing our system of health.

Does this sound like you?

Interest in NUCCA is a must. All good relationships take time to develop and as a result our office prefers to connect with students at least 1 -2 years prior to graduation to introduce all the specialties of our office into your education process and ensure a great relationship.

Sincerely,

Phil Arnone DC
